

# Forever After All

[Luke Combs](#)

They say nothing lasts forever  
But they ain't seen us together  
Or the way the moonlight dances in your eyes / And I know there'll be that moment  
The good Lord calls one of us home and  
One won't have the other by their side  
But heaven knows but that won't last too long  
Maybe some things last forever after all
